

Collaborate ● Understand ● Protect

Advancing Conservation Through Partnership
Science and Collective Action

Conservation Cannot Be Done Alone

The Foundation works
alongside researchers,
conservation organisations,
protected areas and
community partners to create
impact beyond the sanctuary.

Science

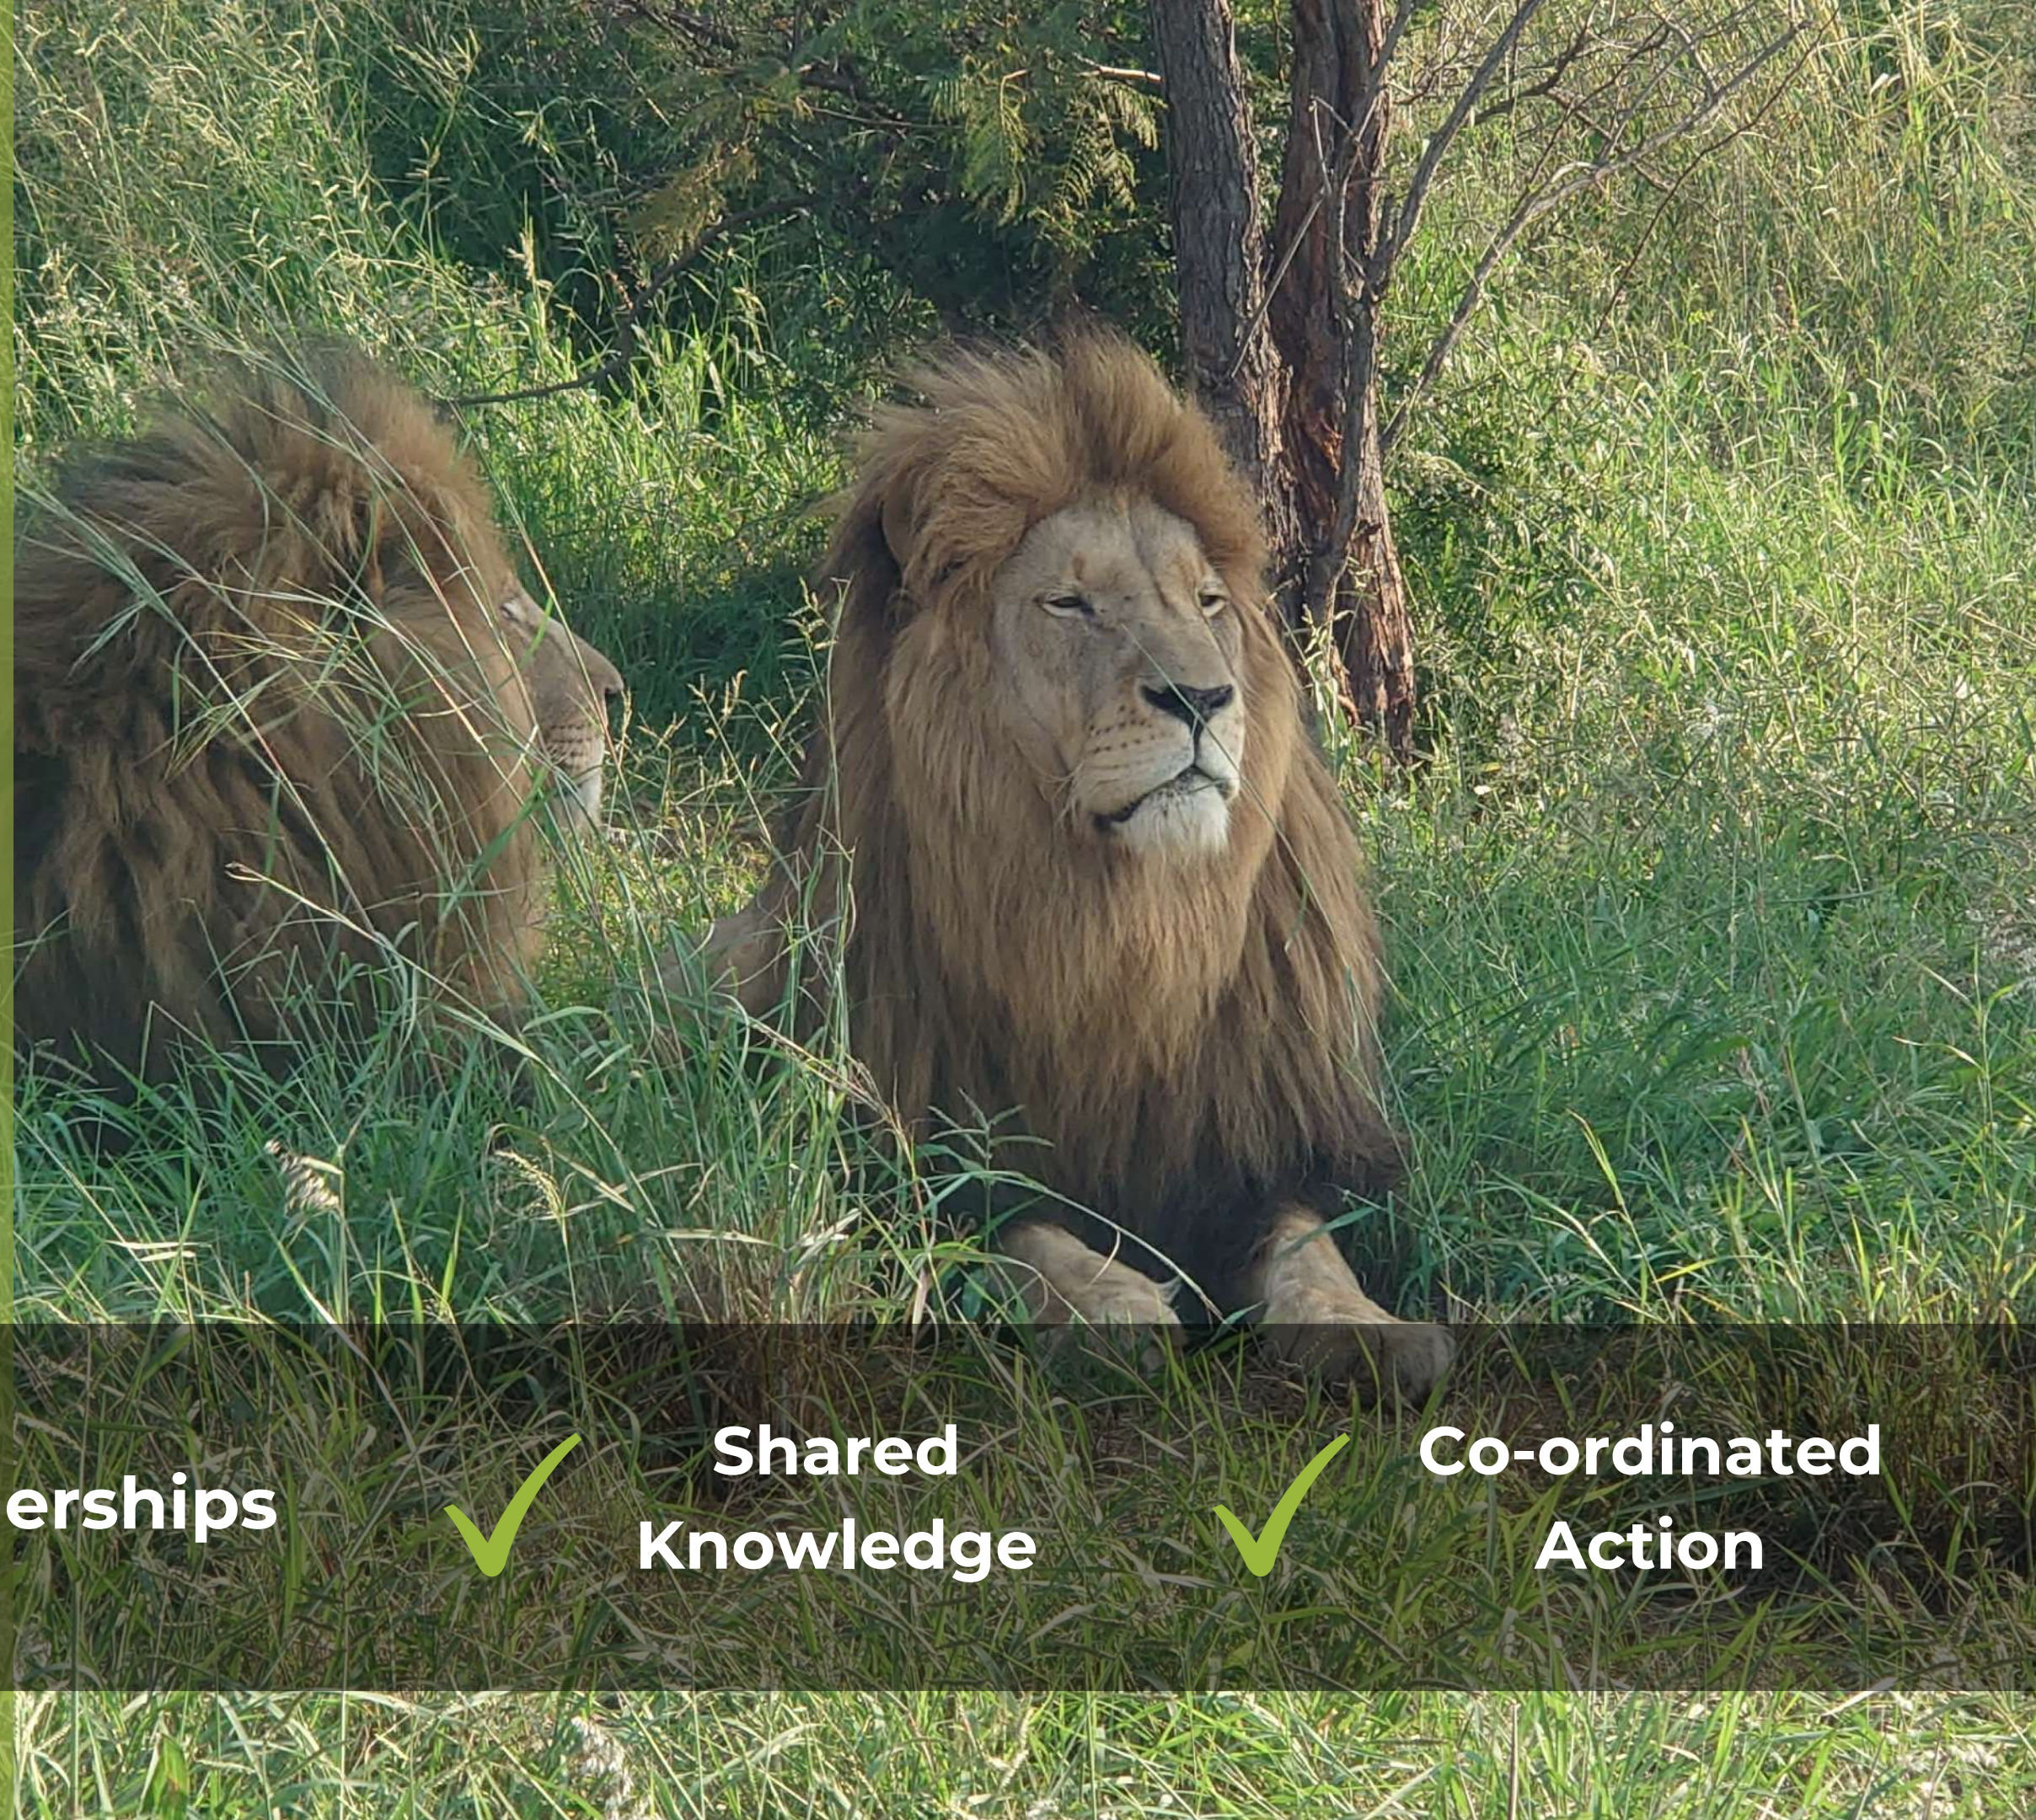

Partnerships

**Shared
Knowledge**

**Co-ordinated
Action**

Why Research Matters

Effective conservation starts with knowledge.

Understanding Before Protecting.

Understand
wildlife
behaviour

Improve
animal
welfare

Identify
threats

Guide
conservation
decisions

Measure
conservation
impact

Partnerships for Greater Impact

The Foundation partners with organisations delivering measurable impact across:

Research

Biodiversity

Anti-Poaching

Communities

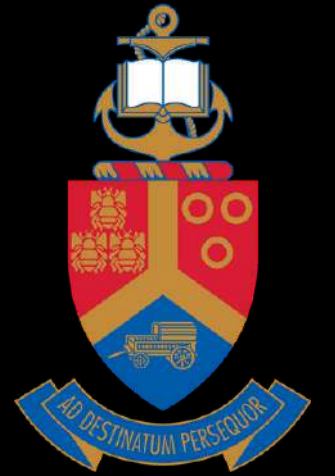

Habitats

University of Pretoria

Advancing Science-Led Conservation

Supporting research that helps shape more informed, responsible and effective conservation decisions.

- Wildlife Health
- Veterinary Research
- Evidence-Based Conservation

Endangered Wildlife Trust

Protecting Wildlife Through Science and Action

■ Species Protection

■ Anti-Poaching

■ Biodiversity Conservation

■ Landscape Protection

Supporting programmes that reduce wildlife crime, remove snares and protect vulnerable species across the **Greater Kruger** landscape.

Dinokeng Game Reserve

Protecting a Living Conservation Landscape

The sanctuary provides a platform to educate and shift perspectives on wildlife conservation.

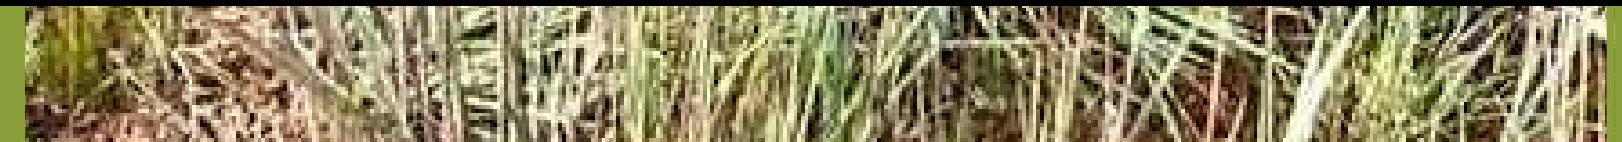

Protected Landscapes

Wildlife Conservation

Biodiversity

Long-Term Sustainability

Providing the space where wildlife, ecosystems and conservation can thrive together

BeeBru

Supporting Nature's Smallest Conservationists

Healthy ecosystems depend on more than iconic wildlife. Through our partnership with BeeBru, we have installed beehives across the sanctuary to support pollinators, strengthen biodiversity and promote healthier ecosystems.

Dinokeng Voluntary Rangers

Conservation Powered by People

**Patrol
Support**

**Community
Stewardship**

**Wildlife
Monitoring**

**Habitat
Management**

Dedicated volunteers helping protect the habitats
and biodiversity of Dinokeng Game Reserve

Looking Ahead

Building Conservation Through Partnership

As the Foundation grows, we remain committed to expanding our impact through science, strategic partnerships and **collaborative** conservation.

✓ Advance

Landscapes

Conservation Needs Partners

The Kevin Richardson Foundation is looking to build meaningful partnerships that create lasting conservation impact.

Let's start the conversation
